

MSAD #4 Emergency Calling System

SAD #4 has established an emergency telephone call system that will be used to contact everyone within a few minutes in the event of an extreme emergency. We also use a modified version of this list to notify people when school is called off for the day, or when schools will unexpectedly be closed early. This is done on snow days as a convenience, but more importantly as a method of practicing for a more serious event.

Parents should have received information on how to be certain that the appropriate phone numbers are on the call list. If you wish to have your number deleted from the “snow day” list please contact the secretary in your child’s school. Please do not depend on this service to replace your existing system of receiving information of this nature, it is merely one more tool that we will use for emergency communications along with written letters, e-mails, and radio/television broadcasts.

Communication is essential in times of emergency, and this new technology gives us the ability to send one message to as many as three thousand people at once.
